## Employment History

Squarespace Inc, Finance Products

July 2019 - January 2020

Senior Software Engineer

New York NY

- Supported and maintained financial data pipelines used for ASC606 revenue recognition, cash and tax reporting and financial planning for a multi billion dollar web site host

Gizmodo Media Group, Data Engineering

September 2016 - May 2019

Senior Developer

New York NY

- Acted as the technical lead to deliver Amazon affiliate program commerce analytics involving three teams and multiple contractors, providing experiment data used to optimize conversions on a front page redesign
- Architected an A/B testing API so experiments could be configured with a web UI instead of disparate scripts
- Owned internal analytics and recommendation systems that served over 100 million users a month; overhauled legacy systems and implemented monitoring, vastly decreasing total outages and virtually eliminating undetected outages
- Ported the organization's microservice framework from Scala and Play to Python and Flask to enable development of services by the data team
- Directly mentored two junior employees

Condé Nast, Copilot API

February 2014 - August 2016

Software Developer

New York NY

- Developed and supported backend services for Copilot, Condé Nast's green-fielded internal CMS
- Wrote a HATEOAS-inspired graph-capable content relationships API that supported the data modeling needs of over a dozen brands
- Worked on the team that launched Vogue Runway's real time fashion show coverage during New York Fashion Week, including leading a data migration that replatformed over a decade of content
